WHAT IS DEBITRAK?

Rather than receiving cash from parents, you can now load money directly onto your child's school meal account where the money is stored safely, ready to be spent at the canteen on site. This will also help prevent the risk of losing it or having it stolen.

ITS FAST AND EFFICIENT

In the Canteen, simply use your card, instead of cash, to purchase food and drinks with money stored in your school meal account. The new Point of Sale (POS) Terminals will have a special reader where the card / fob is used to pay and no need to wait for any change. Every time your card is presented at the reader, your balance is displayed. This lets you know how much money you have available to spend.

TOPPING UP YOUR ACCOUNT

From any PC, tablet or mobile device that has an Internet connection, you can top up your child's account by transferring funds from your debit or credit card. Simply logon to the website and follow the simple instructions. Once completed, your top up will be automatically delivered to their account in school. In addition, you will be able to see what is being purchased every day ensuring your child is eating a healthy balanced meal.

AND THAT'S IT
YOU'RE READY TO ENJOY FRESHLY
PREPARED MEALS IN THE CANTEEN...
